PACIFIC
BUSINESS COLLEGE,
MECHANIC'S INSTITUTE,

POST STREET, Between Montgomery & Kerney
SAN FRANCISCO,

The importance of a thorough and practical business training for those who contemplate entering the mercantile profession, is too well known to require much comment. Without such knowledge, the young merchant will become involved in many embarrassments which might otherwise be avoided. The youthful aspirant will find himself surrounded by inextricable difficulties, both in seeking a situation, and in the discharge of its duties after employment is obtained. To have received instruction at a mercantile college, endorsed by the leading merchants of the city, is more effective in winning the favor and confidence of a business firm, than all the letters of introduction which friends can give. The

Pacific Business College

maintains a reputation for thoroughness and systematic training, far surpassing that of any other similar institution on the Pacific coast. Most of the leading merchants of this city have employed graduates from this College, and bear testimony to the practical efficiency of the course here prescribed. The system of actual practice embraces all the varied operations of real business. A Ladies' Department has lately been added to this popular institute. This spirit of enterprise cannot fail to draw forth the well-wishes of the public.

Address for all information,

A CARD

We the undersigned, merchants and business men of San Francisco, California, are at the present time, employing men who have completed the prescribed course of study at the Pacific Business College, and we take pleasure in stating that we have found them well posted in accountantship and the general principles of business, showing conclusively that they have been subjected to a thorough drill in those important matters, by experienced and competant instructors.

We cheerfully recommend the College as being in our opinion, an institution of intrinsic merit, and well worthy of the confidence and support of the community.

FLEAS.

LYON'S MAGNETIC INSECT POWDER is sure and certain death to everything of the Insect species—Fleas, Roaches, Mosquitoes, Ants, Bugs,

IT KILLS INSTANTLY.

What is peculiarly surprising in regard to this article is, that notwithstanding its instant death to insects, it is perfectly harmless to mankind and domestic animals. It can be inhaled or eaten with impunity. It bears the testimony of eminent disinterested chemists that it is

FREE FROM POISON.

No other article has ever given such positive satisfaction in its use.

Its reputation is well known. It is easily and readily used—directions accompany each flask. Beware of counterfeits.

The ennine has the signature of E. LYON, and the private stamp of DEMAS BARNES & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.

PLANTATION BITTERS.

This splendid tonic is now used by all classes of people for every symptom of a "Stomach of order."

The secret of it is this: Plantation Bitters are certain to correct the juices of the Stomach set all its machinery at work, and enable it to resist and throw off the approaching danger The tendeny of the operations of Nature is always towards a cure: all she needs is a little assistance at the proper time. How much more reasonable and sensible it is to help her along with a gentle, yet powerful Tonic, than to deluge and weaken and defeat her curative processes with poisonous drugs and fiery mixtures, which only stupify and plant the seeds of disease and death.

A great French Physician says: "More than half of the disease in the world comes from neglect to fortify the system against changes of climate, weather and food. The great secret of health is to keep the condition of the Stomach and Blood regular and uniform, so that changes from Heat to Cold, from Dry to Damp, etc., cannot upset the machinery of the body, and breed disease,"

Now, it is a fact, positive and well known, that there is no such bulwark and assistant for the Stomach as

MEXICAN
MUSTANG
LINIMENT.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man and beast, than any article ever discovered.

No compound has ever been invented so useful and efficacious in curing

RHEUMATISM, SORE THROAT,
STIFF AND WEAK JOINTS, BURNS,
BRUISES, EAR ACHE,
SPRAINS, SWELLINGS,
FRESH CUTS OR WOUNDS,

Or any other complaints requiring an externa application.

FOR HORSES

It is an indispensable and valuable remedy it all cases of Spavin, Splint, Ring-Bone, Wind Galls, Bruises, Strains, etc.

It should be kept in every house, camp and stable. Accidents will occur. Promptness is efficacy.

All genuine is wrapped in steel-plate engravings, bearing the signature of G. W. WESTBROOK, Chemist, and the *private* U. S. stamp of DEMAS BARNES & Co. over the top.

An effort has been made to counterfeit it with a cheap stone plate label. *Look closely!*

"LET US HAVE PEACE."

GENERAL U. S. GRANT'S LETTER OF ACCEPTANCE.

"Let us have peace!" is the cry of the millions
Who fought for the starry-gemmed flag of the free;
'Tis the prayer of the hero, the song of civilians,
That rolls from the mountains far down to the sea.
The nation that rocked in the tempest and gloom,
And drifted in doubt to be wrecked on the shore,
The storm has outlived, and the thunders that boom
Are voices that prophesy tempest no more.

"Let us have peace!" is the sigh of the lowly,
That walk in the vale where the cypress is seen,
Who mourn their departed with tenderness holy,
And kneel where the graves are perennially green,
And where the "unknown," in their silence are sleeping,
The feet of the angels are pressing the sod,
And vespers of harmony round them are keeping,
While martyrs of freedom have gone to their God.

"Let us have peace," the evangel of Labor.
Where toilers implo ingly lift up their hands:
Go! wipe off the stains from the death-dealing saber,
And build the bright altar of hope for all lands.
Lo! radiant from darkness the temple in glory
Throws wide to the world the broad aisles of the lane;
And freemen shall toil, as they utter the story.
And children repeat to the ages again.

"Let us have peace," is the chorus ascending
From hamlets that lie 'mid the pine-covered hills
And like a glad anthem in unison blending
Floats on till the plain with its melody thrills;
And rivers that roll to the land of the West,
And prairies that wake to the hymn of the free,
With millions of freemen imploring for rest,
Swells psalms of rejoicing while bending the knee.

"Let us have peace!" from the war's wild comotion,
The trumpet's alarms, and the crash of the field,
And let the new bliss, like the billows of ocean,
Roll over the land where the hero has kneeled;
The smoke of the battle has swept from the sky,
The thunders have ceased, and the bugle's wild blast;
The chains have been riven! and loud from on high
The reveille calls to the love of the Past!

"Let us have peace!" in a holy thanksgiving,
The hero-voice cries, in the name of the Lord!
For the sake of the dead! for the sake of the living!
Turn spears into pruning-hooks—to plow-shares the sword!
And out of the darkness shall come forth the beaming
Of Glory's bright sun where the foemen have trod,
And Freedom shall teach, with a truth all redeeming,
That Peace with our Brother is Peace with our God!

THE THREE LANDS.

Dancing like leaflets
With tremulous quiver;
Glancing, like sunbeams
Crossing the river;
Full of the music
Of fountain and breeze;
Full of the fragrance
Of gardens and leas,
Thus the bright vision
Of Fortune entrancing,
Beckons our youth
To the land of Romancing.

Dimly, through deserts
Where sultriness parches
Grimly, like pilgrims
On wilderness marches,
Full of the terrors
Of warfare and spoil—
Full of the troubles
Waiting and toil—
Thus the sad shadows
Of childhood's ideal,
Phantom-like lead
Through the land of the Real.

Only when cheated
By Fortune's bright fancies;
Lonely and laden
With Life's weary chances;
Full of faint hopings,
That tremble and weep—
Full of strange longings
For rest and for sleep—
Thus we go down,
In our ashes so lowly,
Seek a path
To to the Land of the Holy.

WE commend the following extract from a circular issued by the Union State Central Committee, to the careful consideration of the Union voters of this county. It speaks volumes:

Wherever the fault exists, it should be removed. There is an easy and speedy remedy which should be applied at once: subscribe for your country party paper; give your countenance and encouragement. It will cost you almost nothing. Not a Union man in California will miss the price of a year's subscription to a country newspaper. It is nothing to the individual: it is everything to the paper. It will double its usefulness by allowing it to throw off dead matter and carry more of interest to the reader. With increased circulation will come increased patronage, until in a short time the "dead and alive," paper, whose life seemed almost as much a miracle as was the feeding of the multitude, will become a vigorous, sprightly, and thrifty teacher, capable of being of real service to the party. There is no subject that can engage the attention of the earnest, thoughtful men of the party of more importance than the one under consideration. It is impossible for this Committee to extend the aid to a large number of our papers that seems to be imperatively demanded. Nor should the party wish it. It is not the kind of aid that is of permanent value. If we mean to win, not merely this fight but a long succession of political battles, till the old Secession Democratic party is utterly dead and buried, we must build up our country organs. We must give them a permanent prosperity and not a mere temporary stimulant, the good effects of which are gone the moment election is over. Make them what they should be and they will be really the leaders and teachers of the people. In every School District, in every Club, in every neighborhood where there is one earnest Union man, there an effort should be made to get subscribers to the party newspaper. All that it needs to ensure success, is for some one to properly present the matter to his friends and neighbors in every school district. Will not our friends see that this thing is done? It is the easiest and simplest thing in life to place our party press in a position of independence and usefulness. Do this and you will have aided materially in carrying this State for Grant and Colfax, besides having done something towards a victory in the "next war"

A GOOD story is told of an American merchant who, a few Sundays since, went into a fashionable London church, a few minutes after the service had commenced, and stood in the aisle. The pew opener passed him several times and took no notice of him. They show more respect to a stranger in American churches, so he determined to give them a lesson. Seeing that there was plenty of room in several pews, but that the pew opener passed him again without offering him a seat, he quietly spread open his coat tails, and squatted down on the neatly matted aisle. The clergyman noticed him, and looked at the pew opener, who at once went to him and offered him a seat. "No, thank you," he whispered, "I am quite comfortable, and shall sit here all the service."

THE New York *Mail* reports that a maiden lady has sailed from that city to Paris with a lap-dog, in order to consult a physician there touching her pet's health. The dog is sixteen years old. The lady desires that he may live until he is twenty-five. He has bronchitis and a cough. He is ugly. He looks like a dirty mop, but is tenderly beloved by his mistress.

THE hardships of the ocean—iron clads.

HARD STUDY.

Hard study does not of itself shorten life, but does of itself tend to increase the longevity of man. When hard students die early, it will be found that in some way they had fallen into the habit of violating some of the laws of nature, or began study with some inherited infirmity. The pursuit of truth is pleasurable; it is exulting and promotes serenity. Of all men natural philosophers average the longest lives. The great, the governing reason is, in addition to the above, that their atention is drawn away from their appetites; their gratifications are not in that direction; hence they are neither gourmands, drunkards, nor licentious. Sir Issac Newton had always to be reminded that his dinner was waiting; the call to eat is often an unwelcome one to literary men; they consider eating as secondary; they literally eat to live, and the process of dining is often gone through as a task. Many hard students have become miserable dyspeptics, and have died while yet in their prime; but the tormenting disease was brought on by over-eating, by eating too fast, or by returning to their studies too soon after a hearty or hasty meal, thus drawing to the brain the energy which ought to have been expended on the stomach in aiding to prepare the food for nourishing the system, and not being so prepared, it "lays heavy," feels like lead, or induces other discomfits which increase in intensity and duration, until life becomes a burden and a failure. The French Academy is perhaps the most learned body in the world, and all the ages of the younger members range from 50 to 70. Most of the clever men of France have in this year 1867 reached a great age. Of the members of the French Academy, M. Vinnet is 89; M. de Segur, 86; de Pongerville, 76; Lebrun, 82; Villemain, 76; Lamartine, 75; M. Guizot, 69; Flourens, 78; M. Theire, 69; Berryer, 74; and the Duke de Broglie, 82. This list might be indefinitley extended to all nations—Lord Broughman, Humboldt, John Wesley and many others. The circumstance most favorable to longevity among brain worker is the spending a considerable portion of early life in outdoor activities, travel and the like, and then by a temperate and plain mode of living, the brain will work advantageously until past fourscore years.—*Hall's Journal of Health.*

EMPTY CHURCHES.—Various reasons are given why men do not go to church. Human nature is too true to itself, and men will not go where they are not fed. If there was a discriminating teacher in the pulpit, and he sent men away with better judgment, and with better moral convictions, and with better balanced state of minds; if he sent them away feeling that the sermon went home with them, and they needed it, the church would be a place to which people would resort far more than they do. And never was there a time when so many men wanted religious tracts so much as now. Never was there a time when so many were so hungry for knowledge of things that pertain to manhood, here and hereafter, as this very day. And when they go to church and get nothing but cut straw, and straw raised five hundred years ago, and are dissatisfied at that, and will not go again, I honor them. I lay this law as much to myself as to my brethren. I never scolded you for not coming to church, and I never will. I do not mean here, for you almost always fill this house; but if my prayer meetings and lectures are not well attended it is my fault and not yours. I know it. I do not believe, as long as human nature remains true to what it is, that the herds will refuse to come to the rack when there is juicy fodder there; and if they do not come, it is because there is nothing to eat. Therefore when our evening meetings have fallen off, I have said to myself, "You are falling off and not the people." Even when I have not remedied the evil, I have known the cause of it all the time. And on the other hand, the moment my soul was full, and my sympathies flowed over in overwhelming tide towards my fellow men, I have noticed that my meetings have gone up. If a man sleeps under my preaching, I do not send a boy to wake him up; but I feel a boy better come and wake me up. I am not speaking of watchers of the sick, or of seamen who have just landed, but of "these pillars of the church o'God," that make sleeping a business.—*Henry Ward Beecher.*

JOSH BILLINGS says peakoks dont appear, upon cluss scrutiny, to be ov enny vital importance to themselves nor ennybody else, just now. We read in the old books that the wife of Jupiter, quite often appeard on the boulevard, at mount Ida, with peakoks in dubble harness to a skeleton, this wuz undoubtedly so, but yu must recklekt that peakoks, like everything else, have grown weaker, if not wizer.

Az a means ov diet, peakoks are not good, if they am, it iz a profound sekret, known only to a few. They are altogether too good-looking to be worth mutch, buty haz made them uzeless, it often works so, but buty is worth more to a peakok than to ennybody else, take the buty awl out ov them, and what iz left wouldn't bring more than 15 dollars.

The femail peakok haz a sad and lonesum demeanour; they look and ackt az though they bad bin brought up and edukated just to admire their handsum husbands.

Thare iz one unfortunate fakt that i hav noticed among the animal and bird creashun, and that iz, the men all outstyle the wimmin, and keep them under their thumbs. What a mess this would raize in the human family.

The grate buty ov the peakok himself iz in hiz postscrip; This he kan lift up purpendickular, and spred like a flower-bed.

But when yu kum right down tew aktual arithmetik, one peakok in a township is enuff capital for the whole populashun, and he aint ov enny more account, pretty soon, than the cirkus bills on the butt-end ov a barn, the next day after the performance iz over.

INFLUENCE OF FEMALE SOCIETY.—It is better for you to pass an evening now and then in a lady's drawing room, even though the conversation be slow, and you know the girl's song by heart, than in a club, tavern, or a pit of a theatre. All amusements of youth to which virtuous women are not admitted, rely on it, are deleterious in their nature. All men who avoid female society have dull perceptions and are stupid, or have gross tastes, and revolt against what is pure. Your club swaggers, who are sucking the buts of billiard cues all night, call female society insipid. Poetry is insipid to a yokel, beauty has no charms for a blind man; music does not please a poor beast who does not know one tune from another; and as a true epicure is hardly ever tired of water sanchy and brown bread and butter, I protest that I can sit for a whole night talking to a well regulated and kindly woman, about her girl's coming out, or her boy at college, and like the evening's entertainment. One of the great benefits a man derives from woman's society is that he is bound to be respectful to them. The habit is great good to your man, depend upon it. Our education makes of us the most eminently selfish men of the world We fight for ourselves, we push for ourselves, we light our pipes and say we won't go out; we prefer ourselves and our ease: and the greatest good that comes to man from woman's soceity is that he has to think for sombody besides himself, somebody to whom he is bound to be constantly attentive and respectful.—*Thackery.*

NO HOME.—"I have no home!" How often we hear those words spoken; sometimes lightly; sometimes seriously and sadly, from the broken heart, as if all the afflictions, all the bitterness from the cup of life, had been centered into the sad and mournful thought. However much apparent reality there is in the sad expression in the cases of many, it is always an incorrect assertion. It implies too much. It announces the abscence of everything dear in life; no father, mother, sisters or brothers, friends or kindred; a total separation from all the pleasantest, lovliest and most agreeable things of earth. No one should ever use such an expression; we all have a home; God made this earth for us to live upon; it is our home, and if we take good care of ourselves and of this home He has given us during our sojourn in it, He has prepared another one for us in the realms of Light and Love. We all have a home!

THE POOR BOY.—Don't be ashamed my lad, if you have a patch on your elbow. It is no disgrace. It speaks well for your mother's industry. For our part, we would rather see a dozen patches on your jacket than hear one profane or vulgar word escape your lips. No good boy will shun you because you cannot dress as well as your companions; and if a bad boy sometimes laughs at your appearance say nothing, my lad, but walk on. We know many a rich and good one who was once as poor as you. There is our next door neighbor, in particular, now one of our wealthy men, who told us a short time since that when a child he was glad to receive cold potatoes from his neighbor's table.

MR. SEWARD AND THE CHINESE.

Eighteen years ago Mr. Seward made a great speech in the United States Senate, on the admission of California. In the course of it he made the following remarks:

"The Atlantic States, through their commercial, social and political affinities and sympathies are steadily renovating the Governments and the social Constitution of Europe and of Africa. The Pacific States must necessarily perform the same sublime and beneficent functions in Asia. If then, the American people shall remain one undivided nation, the ripening civilization of the West, after a separation growing wider for 4,000 years, will in its circuit of the world, meet again and mingle with the declining civilization of the East on our own free soil, and a new and more perfect civilization will arise to bless the earth under the sway of our cherished and beneficent democratic institutions."

Commenting on the above the New York *Commercial Advertiser* says:

"As Mr. Seward recalls his public career, he he must contemplate with great satisfaction the part he has borne in enlarging the boundaries of the Republic, and in framing valuable commercial treaties with nations. As the Senator, he held large and liberal views. As the Secretary of State, he has had an opportunity to crystalize them into a policy. To-day, at his quiet home in Auburn, Mr. Seward receives the Chinese Embassy, and crowns his public and official acts toward them, with a generous private hospitality. He may justly lay claim to a large share in 'the new and more perfect civilization' whose blessings to all the world he so clearly predicted near a score of years ago."

☞One of the younger members of the French legation at Washington is noted for his gallant and exquisit compliments. A few evenings since at a "german" at Gov. Morgan's, he was introduced to a witty New York lady who had an ugly flat nose. The polite Frenchman discreetly complimented her dancing, to which she archly replied, "Ah! I have heard you are a flatterer, but you cannot find it in your heart, to compliment me on my personal beauty, so you praise my dancing." "Madam" was the reply with a Parsian bow, "you are an angel from heaven, but you fell on your nose."

☞A good story is told of the Pendelton Escort. Pat Cleary was delegated to lay in commissary supplies for the Escort. He accordingly purchased 12 barrels of whisky, 100 kegs of larger beer, and six pounds of crackers. The bills were rendered to Dick Cox, the cashier, for inspection and payment. Dick, in scanning the accounts, remarked: "Fifteen barrels of whisky—all right; one hundred barrels beer—all right; six pounds of crackers—thunder and Mars. Pat, why the devil didn't you get more whisky and less crackers!"

☞Having no cinerary urn of the classical form, a country manager, producing the play of "Virginius," caused an actor to carry upon the stage the supposed ashes of Virginia in a coffee-pot. The effect of the tragedy upon the audience was very perceptable.

☞Several persons have been tried and sentenced to life banishment and imprisonment at Calcutta for participating in a "Suttee," or woman burning with the body of her dead husband, in contravention of English law.

☞A "professor" of necromancy began his entertainment, the other night in St. Louis, by firing two pistols at the audience, and under cover of the smoke, sloped with the treasury $200. Great enthusiasm by the audience and band.

☞Mr. Gluten tells us that is was so hot Wednesday night, that he couldn't tell where his shirt ended or skin began; and that he only got possession of the former by washing it off in shreds. Bad for Gluten and the shirt, but good for the junk dealers.

☞Jones has discovered the respective nature of distinction and a difference. He says that "a little difference" while a "little distinction" attracts hosts of friends to one on whom it is conferred.

☞The editor of the Religious *Telescope* objects to singing by the choirs of Churches while taking up a collection. He says: "We have sometimes seen brothers so absorbed in singing during the collection that, with their closed eyes, they could not see the basket as it passed."

☞A lady asked a noted doctor if he did not think the small bonnets the ladies wore had a tendency to produce congestion of the brain. "Oh, no," replied the doctor, "ladies who have brains don't wear them."

☞A clergyman, in the course of a sermon, recently, remarked: "You need not clasp your hands so fervently in prayer that you can't get them open when the contribution box comes around."

"The difference is just here, youngsters," said an illiterate school teacher in Texas, "when the earth makes a revolution, it turns on its axes, but when the people make a revolution, they turn on their bayonets."

☞A minister traveling through the provinces some years ago, asked the old lady on whom he called, what she thought of the doctrine of total depravity? "Oh, I think it a good doctrine if the people would live up to it."

☞A learned young lady astonished a company by asking for the loan of a dimunutive, argenteons, truncated cone, convex on its sumit, and semi-perforated with symmetrical indentations. She wanted a thimble.

☞After the pleasure of possessing books there is hardly anything more pleasant than that of speaking of them, and of communicating to the public the innocent richness of thought which we have acquired by the culture of letters.

☞The modesty of certain ambitious persons consists in becoming great without making too much noise; it may be said that they advance in the world on tiptoe.

☞They who tame horses pretend to whisper to them; they only breathe in their nostrils; buffalo calves are tamed the same way.

☞A tipsy loafer mistook a globe lamp with letters on it for the Queen of night. "I am blessed," said he, "if somebody hain't struck an advertisement on the moon.

☞A man is a mere telescope in a woman's hands: she draws him out, looks him through, shuts him up, and shelves him.

☞"Grant has got to work early if he expects to get a victory," quoth a Democrat. "He 'worked' Early once in the Shenandoah and got one," quoth a Republican.

☞My advice is to consult the lives of other men as we would a looking-glass, and from thence fetch examples for our imagination.

☞An auctioneer is like a man with an ugly countenance, because he is always forbidding.

☞Every negro becomes "intelligent," "moral," "refined," and "white," the moment he votes the Democratic ticket.

☞There is but one way to account for the nomination of Frank Blair. He was the tub tossed to the Southern whale.

☞It is proposed when the Chinese go to Boston to present them with an extra set of pigtails, the gift of the pork merchats in Faneuil Hall Market and vicinity.

☞A wag proposes to publish a new paper called "The Comet," with an original "tail" every week.

☞The great chastisement of a knave is, not to be known, but to know himself.

☞Prosperity seems to be scarcely safe unless it be mixed with a little adversity.

☞Whatever beauty may be, it has for its basis, order, and for its essence, unity.

☞Men in earnest have no time to waist patching fig leaves for the naked truth.

☞It is always easy to shut a book, but not quite so easy to get rid of a lettered coxcomb.

A SEA captain, trading regularly to the African coast, was invited to meet a committee of a society for the evangelization of Africa. Among numerous questions touching the habits and religion of the African races, he was asked:

"Do the subjects of King Dahomy keep Sunday?"

"Keep Sunday?" he replied, "Yes, and every other darned thing they lay their hands on!"

DUTCH FLAT ENQUIRER.

SATURDAY, AUGUST 29, 1868.

A MILL.—At last prospects are fair for the erection of a mill on the blue lead. Quite a number of gentlemen in this place with a worthy spirit of enterprise pledged themselves to advance certain sums of money, amounting in the aggregate to $2,000, to be used in the erection of a mill on the ground known as the Baker Boys' claim; said money to be expended under the supervision of a board of trustees, selected by the subscribers. A provision is made that if the mill pays, the money is to be paid back to the subscribers as it is earned, with interest at the rate of two per cent. per month, and after that is paid the mill goes to the present owners of the claim. Work will be commenced on the mill in a few days we understand.

A FINE HOTEL.—A few days since, while at Truckee, we visited the new hotel of Mr. Campbell, now in course of erection. It is one of the finest we have ever seen in the mountains. The main building is 40 x 74 feet, and three stories high, and is hard finished throughout. The first floor contains a commodious parlor, dining-room, saloon, ladies' bath-room etc. On the second floor are sixteen, well ventillated and lighted, suits of rooms; and the third floor is also devoted to sleeping apartments. The whole house is to be superbly furnished, and will be, when completed, one of the finest hotels in the mountains. He contemplates opening it to visitors on Monday next.

MAILS.—As often as twice, and frequently three times per week the San Francisco mail fails to reach this point until one day after time. We then receive two mails at once. This irregularity is always very vexing, and frequently is it conducive of serious inconvenience. Especially is it of great inconvenience to us when it fails on Friday, as we are compelled to go to press on that evening, and consequently matter designed for our columns does not reach here until after our paper is issued. What, or where the fault is we do not know, but that it exists is a certainty.

FAVORS FROM STRATMAN.—We have received from Major Stratman, *Day's Doings, Smith and Street,s Weekly, Harper's Weekly, Frank Leslie's Illustrrted Newspaper, Godey,s Lady's Book, Illustrated News, Toledo Blade, New York Tribune, Merryman's Monthly*, etc., etc. While Major Stratman was East, in his official capacity of delegate to the National Union Convention, he made arrangements with the various publishers, to forward his supplies ahead of all others, so that parties purchasing of the Major will get their periodicals quicker than in any other way.

ON last Tuesday as a freight train was going down the grade, about three miles east of Truckee, the coupling got detached in some manner and the engine being stopped shortly after, caused the to portions to come together with terrific force, and pushed the railroad iron, which the cars were loaded with, from one car to the other, and caught one of the brakemen, and broke his left thigh, and caused a compound fracture of both his legs, also broke his left arm. Dr. Jones and Weed were called and rendered efficient surgical aid.

QUIT.—All the mining claims of this vi inity have suspended operations for the present season, the last one, the Jehosephat haulded off during the early part of the week. Mr. Beals has quite a number of men engaged cleaning up his large flume in the canyon below town, and when this is finished the mining hereabouts will be confined to preparing for the coming season. The Jehosephat, we learn, paid during the last run of twenty-five days, at the rate of one hundred dollars per day.

ON last Sunday evening quite a number of hogs, belonging to some Chinese, broke into Mr. Spencer's garden, and while that gentleman was in the act of driving them out, he was attacked by the owners when quite a battle took place. One of the Chinaman got his skull broke, the rest of the assailants thinking that the battle was getting to hot for them, took a walk, leaving Mr. Spencer the victor.

GRAND BALL.—Mr. A. M. Jewell, of the Hacket House Gold Run, contemplates giving a grand ball at his place, on or about the 10th, of September next. Mr. Jewell informs us that no labor or expense will be spared, in making this the ball of the season. From the superior taste exercised by Mr. Jewell and his lady, in getting up parties, heretofore, we can promise our dancing friends a rare treat.

PERSONAL.—We were favored with a call, no Thursday, from W. H. Davenport Esq., traveling agent of the *New Age*, the Odd Fellows' organ on this coast. He will canvass in this place to-day. The *Age* is a good paper, and well worthy of support, and we hope the brethren of the order will swell Mr. Davenport's list with a goodly number of names.

THE Dashaways were addressed in an eloquent manner by the Rev. J. E. Benton on last Monday evening. The association will meet next Monday evening. A good glee club has been organized which will discourse agreeable music. A cordial invitation is extended to the public to attend the meetings.

RIGHT.—We notice that our Road Commissioner, Mr. Clark, has been engaged during the past few days leveling off the lot below the Old Corner Saloon, and by so doing is improving the appearance of that portion of town and also materially bettering the condition of the road. That's right, Mr. Clark, fix the roads up nice.

GOING.—Arnstein & Co., have men now engaged in tearing down those three old buildings, which has been the subject of so many notices in this paper. This is as it should be; they have disgraced the appearance of our town long enough.

ROBBED.—On Wednesday evening, of last week, the sluice boxes of the Josephat Co., were picked by some light-fingered individual. On the same evening the cabin of Mr. Higby, was entered and relieved of its contents.

FIRE AT AUBURN.—A fire occurred at Auburn about two o'clock Thursday afternoon, which destroyed five houses. It was caused by a Chinaman building a fire near a bale of hay which it ignited, and from thence the fire was communicated to some buildings that stood near.

MESSRS. WELLER & MORRIS, of Truckee, are engaged in erecting a stone store, the first in the town. Messrs. Sisson, Egbert & Co., are also contemplating building a fine fire-proof structure.

NEW PAPER.—We have received the first number of the Merced *Herald*, published by R. J. Steel, formerly a newspaper publisher in this county. It is Democratic in appearance and politics.

WEEKLY.—The San Francisco *Call* will publish a weekly edition after the first of September. The *Call* has improved very much in appearance of late.

☞ Do not fail to hear the speech of Hon. A. A. Sargent on next Monday evening. Democrats, attend, and hear the truth spoken.

TRUCKEE is a nice place, it can boast of from one to three fights per day. Whisky is plenty, and a bit a drink. The town is being rebuilt rapidly, and money is plenty.

THE Empire mill, at Grass Valley, made an excellent clean up of $40,000, last week, after a run of twenty-two days.

It is noticeable what a difference it makes in the character of a man who has been a member of the Democratic party and goes over to the Republicans. P. H. Sibley, when he went over to the Democracy last year, was lauded and pampered, and called the war-worn vetran, the clear-headed Colonel and other endearing titles; but when he returned this Summer to his former faith, he immediately fell in reputation. influence and character, to a lower standard than man was ever known to reach; he was transformed, according to the Democratic press, from the noble Colonel to an unmitigated villain, a man without principles or sense, and even wanting in common decency, and all this in a few, short hours. When it was announced that the Hon. A. P Dudley would renounce the modern Democratic faith, and do service, for the cause of humanity and justice, in the Union ranks, he who had been, in Democratic eyes, the brave, staunch, old war-horse, whose hair had grown gray in the service of his party, and his voice hoarse in proclaiming its principles, he was denounced in unmeasured terms, and proclaimed to be a man without character and a noted somersault turner. This may all be very well; but to us it appears exceedingly silly. There is no man but what has his influence; and viewing the matter as we may, we can see no hopes but defeat for the Democracy. It is said that the rats are always the last to abandon a sinking ship, if such is the case the Democratic ship must be pretty well under water, taking the asseverations of the Democratic press of the character of the men who are abandoning the party as authority.

THE *Pajaronian* makes the following grave charge against Rev O. P. Fitzgerald, the leading minister in the Methodist Church South, in this State. While we acknowledge the proneness of mankind to err, and know that there are but few, if any of us that at all times set just the example that we should, we think that better things should be expected of one who has the control, as it were, of the moral education of the children of this State, and who by virtue of his ministerial position, if from no other reason, should at all times seek to place himself as a model for men to copy after. The Good Book says—If the blind lead the blind both shall fall into the ditch; now taking this Book as authority, what must we expect as the result of the works of such a leader:

In this town whisky has got the inside track, and every good man should use his utmost endeavors to induce men to become temperate. Many a family in this place feels the curse of whisky, and we are not surprised that such is the case from the number of whisky mills along each side of Main street. Rev. O. P. Fitzgerald, State Superintendent of Public Instruction, came here last week to the Teachers' Institute. The next day after his arrival he went into a certain rum-hole in this town with a crowd of men and with them drank at the bar! This for a Methodist minister, and a man who holds the position he does in our educational department, is enough to provoke the contempt of every decent man. We do not care whether Fitzgerald guzzles whisky at home or not, but considering the hold whisky has on this town at present, we decidedly object to his coming to Watsonville and taking it publicly with a crowd, in a rum mill.

THE following from the Sacramento *Record* is another instance of the "purity" of public servants:

An Auburn correspondent of the Sacramento *Record* under date of the 24th, furnishes the following: There was quite a cowhiding affair in this quiet town of Auburn last Saturday morning. One S. R. Case, County Superintendent of Public Instruction, had been taking improper liberties with a little girl, aged about eleven years, the daughter of Mr. McKune, a quiet and peaceable citizen. Mr. Case is aged about 45 and has a wife and family, but they are not living with him at present. Mr. McKune heard about this affair some time ago, but did not believe it at first. He went to work and quietly made proper inquires about it and found out that it was true. So last Saturday, he gave Mr Case his just dues. It is not known whether Case will resign his position or not.

THE SENATORSHIP IN NEVADA.—The Union State Central Committee of Nevada have adopted the following:

Resolved, that the Union Republican County Conventions of this State be recommended and requested to require a pledge from the Legislative candidates to support, for the office of United States Senator, such persons as shall receive, at the general election, the highest number of votes for such office in their county, upon Union ballots—all ballots to be considered Union ballots which shall contain the names of all the Union nominees for Electoral, State and Legislative offices.

It is reported that DeLong has withdrawn in favor of Stewart, the present very able and efficent Senator. It is probable therefore that he will be reelected. He needs no praise from us, his works praise him, but if the people shall indicate a desire for any other man, we hope it may be for John A. Collins, one of the most faithful, earnest, clear-headed and true-hearted men of that State.

UP AND DOWN. NO. 2.

Cisco.

Having partaken of a good lunch ending with riper peaches than we had seen before this season, we were fortified for a glimpse at the town's departing glories; "departed never to return."

Cisco was named for John J. Cisco, United States Assistant Treasurer, at New York. The wealthy financier can find better use for his funds than to bestow them on his namesake or invest in its lots. It had hoped for permanence by the prosperity of Meadow Lake and the Excelsior district; but both towns and the mining district are now well nigh deserted. Alas! for high hopes based on the lower level. The hopes have vanished into thin air, and little has been struck on any level. But the Conductor says "all aboard," and we rush on and into Tunnel No. 3—280 feet long, then out and between the rows of posts of the skeleton snow-sheds, through deep cuts of solid granite, and through Tunnels No. 4, and 5, 85 and 128 feet long. On the right hand are frowning cliffs of granite—the immense boulders of the American divide—on the left the gorge of the Yuba with more boulders and cliffs and heavy battalions of pines and firs, stationed like sentinels to guard the rocky ramparts against the barbarous ravages of civilization. Alas! for the brave old guardians that have fallen, and the solid bastions that have been compelled to yield to the power of powder and nitro-glycerin. Along the whole line from Cisco to the summit, thousands of these sturdy monarchs of the forest yet stand, scarred and marred, winged and decapitated by the rocks hurled from the R. R. blasts. Old Cyclops was a cipher beside Charley Crocker. No tree was safe within three-fourths of a mile. Now we feel the cool airs of the summit and snuff its resinous and balmy breath. Just above us on every hand are banks of snow and munitions of rocks. While gazing at the castellated walls and pinnacles at the right we find ourselves suddenly in the green meadows of Summit Valley. This seems no kith or kin of the lower valleys, but is evidently of an exalted and superior race, not subject to the changes and blights of its sisters, but dwelling in perennial brightness. It has but one change of garment, from living green to pure white. Shall our eyes ever see the beautiful villas that in the future shall here receive the parched and fevered fugitives from the plains below. It is but a day-dream that fifty years hence these mountains will be glorious with parks and mansions that will outshine the world in their regal splendors? But we have reached the summit station and have but a moment to glance at the frame of the new hotel, and at the surrounding peaks and snow-banks when we are called to return to the cars, to find ourselves whirled into the darkness of the Summit Tunnel. This is the longest tunnel of the line, but being strait we do not quite loose the glimmer of light through its entire length of 1659 feet. Here we begin to deseend from our lofty height of 7043 feet. This was the great bugbear, but the giant nitro-glycerine, demolished him in eleven months, when two years had been set as the very shortest time in which it could be accomplished. Here the Central Pacific won its victory over the Union Pacific, in its race for Salt Lake. It was a great bore here and probably a greater bore to the Union Pacific as doubtless, through it Charley Crocker bore off the honor of first reaching the backbone of the continent. Scarcely are we out of it, and peering up at the towering cliffs of the right, and the yawning gulph of the left, before we enter and pass another of 100 feet. Here we pause to "snow up" the water tanks, and find we are not only almost over Donner Lake but actually above the snows; for below us on our left lies an immense bank of great depth. The Summit is nearly 1200 feet above the lake, and about five miles in an air line from Truckee, but to reach it a detour of fourteen miles has to be made, passing through six other tunnels of 375 feet; 223 feet; 525 feet; 570 feet; 342 feet; and 862 feet; many of them so curved that in passing daylight is lost entirely. To make this distance, fortunately, there is a large ravine called Strong's Canyon and Coldstream, which is a considerable valley and in passing up and down them we make two more ox-bows or U's. On Coldstream are five or six saw mills all in service of the R. R. each of which has a side track for the convenience of loading. At the foot of Donner Lake are Towle's mills, cutting about 80,000 feet of lumber a day, with a side track a mile long—probably the longest mill-track in the State. We cross Coldstream twice—once after it has united with the outlet of Donner Lake and has become a considerable stream, nearly as large as the Truckee itself. It has a bridge one hundred feet high and nearly three hundred feet long. This brings us to Truckee or Coburn's Station. Which shall we describe first—the rocky gorge full of granite boulders of all sizes, cleared away only in the track of the railroad;—the devastation of the recent fire, where scores of Piute Indians, with their squaws and papooses, are prospecting in the ruins for nails and other valuables;—or the motley crowd of men apparently under steam pressure, hurrying here and; or the army of teamsters and mechanics, busy in the erection of new buildings. The new hotel of the depot is yet uncompleted and the place to lay the head of a new arrival is not to be found. At such a juncture it is pleasant to hear the announcement that there is a free carriage for Grant's, at the foot of the Lake, and one for Pollard's at the head. The former is only filled, the latter overflowing. We have been for Grant and Colfax, but, just now, hurrah, for Grant and Donner! DECLIVIS.

WE have often heard it said that fallen woman is the lowest of all things, and certainly to human eyes she does appear to be, though in truth she is no more degraded than a low man. A few days since we were horrified by seeing, in a flourishing railroad town, two women promenading the streets, going from one saloon to another drinking and carousing, swearing and staggering, like "noble lords." One of them possessed a black eye, the result, we were informed, of a rough and tumble fight. We do not recall anything that had quite such a revolting appearance as did they. Women, once pure and lovely, now wallowing in the filth of the streets, degraded and abandoned.

TANNING.—A. L. Dudley, of Calavras, laboring for the firm of Grant & Colfax, dressed a few confederate hides before a large and enthusiastic crowd of Union men, at Sacramento on Monday evening last. He will glut the market before the first of November.

THE NEW WAY.—On Saturday last, San Francisco papers were received at Sacramento at half past 10 o'clock P. M., by way of steamer to Vallejo, the Cal., Central R. R., to Davis Ranch and stage from thence to Sacramento.

WHO WERE KNOW NOTHINGS?—Some Democrat with "felonious fingers" has forged the name of Schuyler Colfax, trying to fix upon him the charge that he was a Know Nothing. Dibble and Coffroth can be convicted without resort to felony.

HURRAH FOR THE FEJEES.—The king of the Cannabal Islands, offers them to the United States. Let us take them by all means, they are fast becoming civilized and christianized. England wants them badly.

Chico has five different places of public worship.

IT is reported that oil has been struck in the San Pablo hills, Contra Costa county.

A. A. SARGENT and J. W. Coffroth, are to have a debate in Sacramento sometime in October.

SARGENT speaks at Truckee to-night.

Antquity of Brandreth's Pills.

Age is not claimed as a merit, only as a sign of intrinsic worth.

The really useful article lives on with a strong vitality; the poor one languishes for a time and then goes out easily.

BRANDRETH'S PILLS are even prescribed by great physicians when the bowels call loudly for help, because they never fail to open and give relief.

Hundreds and thousands would consider it a calamity if these safe family Pills could not be obtained. It has been officially settled that more of BRANDETH'S PILLS are sold than all other pills put together. Merit sells them.

BRANDRETH'S PILLS possess qualities which restore every organ and fiber of the body to health; are purely vegetable and safe for every period of life.

AMERICAN

WALTHAM WATCHES.

PROOF OF THEIR SUPERIORITY.

Pennsylvania Railroad Company.

OFFICE OF THE GENERAL SUPERINTENDENT, ALTONA, PA., De. 15, 1867.

GENTLEMEN:—The watches manufactured by you have been in use on this Railroad for several years by our engine men, to whom we furnish watches as part of our equipment. There are now some THREE HUNDRED OF THEM CARTIED ON OUR LINE, and we consider them GOOD AND RELIABLE TIMEKEEPERS. Indeed, I have great satisfaction in saying YOUR WATCHES GIVE US LESS TROUBLE, and have worn and do wear much longer without repairs than any other watches we have ever had in use on this road. As you are aware we formerly trusted to those of English manufacture, of acknowledged good reputation, but as a class they never kept time as correctly, nor have they done as good service as yours.

In these statements I am sustained by my predecessor, Mr. Lewis, whose experience extended over a series of years.

Respectfully,

EDWARD WILLIAMS, General Superintendent.

American Watch Company, Waltham.

New York Central Railroad.

LOCOMOTIVE DEPARTMENT, WESTERN DIVISION, ROCHESTER, Dec. 24, 1866.

GENTLEMEN:—I have no hesitation in saying that I believe the great majority of locomotive engineers have found by experience that *Waltham Watches are the most satisfactory* of any for their uses. They run *with the greatest accuracy and steadiness*, notwithstanding the rough riding of an engine, and, as I have *never known one to wear out*, they must be durable. I hope to see the time when railway companies will generally adopt your watches, and furnish them to all engineers and conductors. In my opinion it would greatly tend to promote regularity and safety.

Yours Respectfully,

SUMMER RETREAT!

To families and all strangers in the mountains the proprietor would say that Dutch Flat presents all the inducements of a Summer Retreat, being located on the line of the Pacific Railroad at a convenient and pleasant distance from the city, is easy of access to those whose means are limited and require fresh air kind treatment and good living. All the proprietor asks is an opportunity to prove the correctness of the above assertions.

FRENCH MEDICAL OFFICE.

DR. JULIEN PERRAULT, Doctor of Medicine of the Faculty of Paris, Graduate of the University Queen's College, and Physician of the St. John Baptiste Society of San Francisco.

DR. PERRAULT has pleasure to inform patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Armory Hall Building, North-East corner Montgomery and Sacramento streets, San Francisco. Rooms No. 9, 10, 11, first floor, up stairs, entrance either Montgomery or Sacramen streets.

DR. PERRAULT'S studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long after-ward; patients, laboring under this complaint, will complain of one or more of the following symptons: Nocturnal Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Urethra on going to stool or making water, the Intellectual Faculties are Weakened, Loss of Memory ensues, Ideas are clouded and there is a disinclination to attend to business, or even to reading, writing or the society of friends, etc, The patient will probably complain of Dizziness, Vertigo and that Sight and Hearing are Weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, faintings, coughs and slow fever; while some have external rheumatic pain, bness of the body. Some of the most common symptons are pimples in the face and aching in different parts of the body. Patients suffering from this disease, should apply immediately to Dr. PERRAULT, either in person or by letter as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage Gonorrhea, Gleet, Strictures, Bubo Ulcers, Cutaneous Eruptions, etc., will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system.

DR. PERRAULT'S diplomas are in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under chronic diseases, can call and examine for themselves. We invite investigation; claim not to know everything, nor to cure everybody, but we do claim that in all cases taken under treatment we fulfil our promises. We particularly request those who have tried this boasted doctor, and that advertised physician, till worn out and discouraged, to call upon us.

Low charges and quick cures. Ladies suffering from any complaint incidental to their sex, can consult the doctor, with the assurance of relief.

Female Monthly Pills.

DR. PERRAULT is the only agent in California for DR. BIOT'S Female Monthly Pills. Their immense sale has established their reputation as a female remedy, unapproached, and far in advance of every other remedy for suppressions and irregularities, and other obstructions in females. On the receipt of five dollars, these Pills will be sent by mail or express to any part of the world, secure from curiosity or damage.

Persons at a distance can be cured at home, by addressing a letter to Dr. PERRAULT, corner of Sacramento and Montgomery streets, Rooms 10 and 11, or Box 973, P. O., San Francisco, stating the case as minutely as possible general habits of living, occupation, etc., etc.

THE AMERICAN WATCH FACTORY AT WALTHAM, MASS.

That which brings labor and capital together benefits both the laborer and the capitalist. Even in Great Britain, where capital acts but too often like a huge tyrant, and labor is its slave, as in the colleries and great manufactories, political economists have still observed this as a fundamental principle. How much more, then, must such an institution as the Waltham Watch Factory to be regarded as a blessing to the community. Here the most perfect of all machinery, backed by an abundant capital, that suffers nothing to remain imperfect for want of means to rectify it, and the most experienced and skillful labor, at wages of from $1 75 to $7 and $8 per day, are combined in the production of watches, all registered so as to run in the most perfect time, like chronometers. So perfect are they that if any part whatever is broken or injured, a new piece can at once be supplied. There are now three of these companies in the United States, but this one at Waltham is the oldest, and for the last nine or ten years has been a source of prosperity to the proprietors, and still more obviously so to the seven hundred persons employed in the various departments. The watches thus produced are so superior in uniformity to any that are or can be made by hand, that the time will soon come when we shall cease to import all but the very cheapest and commonest sort made, perhaps for show and sale, but not for use. Already there is a considerable demand for them abroad, notwithstanding their high price, and we hope the day may not be far distant when our city may be able to boast that this manufacture is carried on in addition to all the others in which we excel.

The building forms three sides of a square. It is light, airy, wholesome, and beautifully clean and well finished in every one of its twenty-five distinct apartments. Water is on every floor, and in almost every room, for drinking and (as well as fifty fire extinguishers) as a precaution against fire. The building is heated by steam, and in all its appointments nearly perfect.

All those employed exhibited a degree of neatness, respectability, and refinement such as is scarcely to be found elsewhere. The mainsprings are, we believe, mainly bought in Philadelphia, and the wire for the hair-springs is brought on the reel from Europe; but except these, everything, including the finest steel tools and machinery, are made on the premises. One complicated machine, for cutting one piece of the hard steel, works in three distinct ways, and cost over a thousand dollars, though invented by one of the workmen in the establishment. The steel screws used on some parts of these watches are so fine that to the naked eye, the thread is invisible. These are sometimes sold separately to watch makers. It takes three hundred thousand of them to make a pound and the iron, which at first may have been worth two or three cents, is thus converted into a value of $4,000. Such is the beauty, perfection, and value of skilled manufacture. The preparation of the jewels for these watches forms of itself a most interesting department. At first they used to be imported from Europe, where they were made by hand; but now they are all cut, shaped, polished and drilled in the establishment and by machinery, far more exact and uniform than any made elsewhere in the whole world. The sapphire and the beryl are used where the hardest and best stones are required. These are first cut with a wheel of tin, into which diamond dust has been forced by the superior hardness of the best steel. This cuts up the stone as marbles are sawn. Then chipped round like the old flint arrow-heads of the Indians, further revolutions, with the aid of diamond dust and proper machinery, hollow out a little cup, and polish the whole, of one uniform exact size. To bore with the point of a diamond the pivot holes, first half way through on one side, and then from the other half, till both meet smoothly in the middle and form a microscopic tunnel, through the jewel, in which the pivots may run smooth and frictionless, is the work which the delicate fingers of only two or three of the girls employed in the whole establishment, guided by the jeweller's glass, can, with all the aid of machinery accomplish with sufficient exactness. Even then the most accurate tests and measures for every hole are used, and every thousandth part of an inch is carefully noted against the number of each watch, in case they should ever want replacing. Twenty thousand of these jewels per month are sometimes used. Brass wheels and steel cogs have all to be cut with a perfection of accuracy which nothing but machinery such as this, and the most skilled and practiced workers can insure. Most of the finest work seems to be done by females, each devoting her whole time to one process. A single part of the watch will often involve from twenty to seventy of these processes. When it is all done, and tempered and polished, the parts are put together, made to run, and regulated. After this it is all taken to pieces and the brass is all gold-washed by the electrotyping process, and then put together again. But so accurately do all the parts and screws fit, that this last work of putting together seems hardly to take five minutes.—*Public Ledger.*

CARD FROM GORHAM.—We find the following in the Carson *Appeal* of Sunday:

L. R. BRADLEY, Austin, Nevada:—I have seen your card dated August 17th, and published in the Sacramento *Reporter* of the 21st, concerning an allusion to you made by me in a speech at Austin on the 15th. You must know very well that I had no intention of misrepresenting you, for as soon as I learned you were not (as I had been told you were) the Bradley that testified in the Hardy Impeachment trial, I sent you an explanation by Mr. Archie McDonald and Col. Raymond, both Democratic friends of yours. The story I told concerning the other Bradley, viz.: that he testified to having "always said that he thought the firing on Fort Sumter was premature" has no application to you. In justice to you I here state that I do not believe you ever thought the firing on Fort Sumter *was* premature. GEO. C. GORHAM.

Carson City, Aug. 22, 1868.

THREATENING WAR AND REBELLION.—Republican papers and speakers are free and furious in their denunciations of all rebels and rebellions; yet it is a note-worthy fact that three of the principal speakers at the Republican meeting of Tuesday evening—Dudley, Swift, and Tyler—threatened that in the event of Seymour's election we should have another war—that his opponents would be compelled to rise with arms against the Government. These were, "If we cannot elect Grant we will not submit to 'the will of the people.'" We beg to remind these windy threateners of revolt, that certain other parties once attempted that little game, and came to great grief in consequence. Threats of rebellion come with bad grace from those politicians who assume to be the only opponents of rebellion; but after all they are but natural. "Rule or ruin" is their motto, and they cannot help exhibiting their true colors and dispositions by fomenting new disturbances and more rebellions. Can politicians who openly threaten rebellion against constitutional government, be entrusted with the management of affairs? This is a question deserving the serious consideration of the people.—*S. F. Call.*

Does the *Call* take all its readers for fools? Has not Frank Blair declared for revolution and war? Would he not fight to trample down the reconstructed State Government? Did not Wade Hampton ask his hearers to register an oath that they would place Seymour and Blair in the White House with bayonets, if they had a majority of white votes? You cannot put the war boot on the Union by this tune, Mr. *Call.*

THE Hon. A. A. Sargent we learn will address the citizens of this place on next Monday evening. The County Central Committee, with its usual promptness, has failed to have the announcement made as yet, but presume they will. We trust the Union men of this vicinity will turn out in full numbers and have a rousing meeting.

GENERAL NOTICES.

HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. YOUNG, in 1850. In this age of deceit and charlatanism, it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor the sick and troubled can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number or the manner of directing your letters. Consultation Office, 540, Washington street, San Francisco.

☞ We have but little confidence in the trumpet tongued statements of the proprietors of advertised medicines generally, but are forced to concur in the opinion, uniformly expressed by all who have used PERRY DAVIS' PAIN KILLER, that it is a very valuable article, and one that it would be well for every household to have at hand, in case of bruises, scalds, burns, diarrhœa, dysenery, cholera, fever and ague, and the host of disease external and internal, which is adapted to cure or alleviate. No artical of medicine ever attained to such unbounded popularity and extensive diffusion. It has penetrated to every part, even the most remote, of the known world, bearing with it its healing influences more potent than those of the species of "Araby the blest." We are informed by our principal druggist, that they sell more of this article for exportation than any or all others, and that the demand is constantly increasing.—*Salem Observer.*

MEDICAL ADVICE.—DR. WM. K. DOHERTY'S Medical and Surgical Institute is becoming a sine quo non to the welfare of our State and heatlh of our citizens; and his rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natural result of such a cause. We are personally acquainted with gentlemen who had suffered for years under chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Doherty, who, in an incredibly short space of time, has given them entire relief. It is gratifying to announce this fact, because the Dr. is a gentleman who seeks, not by defamation of others to establish his reputation or ruin of another's fame. The Doctor conducts his own Institute in such a manner must be gratifying to all his patients. He examines, advises, and recommends without charge, and the patient, after hearing his terms for treatment, can accept or reject at pleasure. In no case does the Doctor make a charge unless he effects a cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt consolation which appertain to that confidence. Persons afflicted with either acute or chronic disease, would do well to consult the Doctor; at all events, it can do no harm, as for consultation he asks no fee; nor does he insist on obedience to his advice unless the patient places himself under his care. His offices are on Sacramento street, opposite the Pacific Mail Steamship office.—*News*

THE property of this Association is located in San Francisco, on the Central Ocean Macadamized road, about a mile and a half from the now thickly settled portion of the city, and fronting on the New Park, of one thousand acres, recently located by the Board of Supervisors; Lake Honda, and the property of the Spring Valley Water Company adjoining on the east. The magnificent reservoir of the Water Company, now nearly completed, will always be an object of attraction to parties visiting San Francisco.

SCHOOL LOTS are reserved in adjoining blocks.

The principal object in organizing the above Association has been to get a desirable property to offer those persons in the interior who wish to purchase a Home-stead in San Francisco, on Easy Terms, and also, in a locality where real estate is daily increasing in value, so that they may reasonably expect that the lots purchased will be marketable at a handsome advance on the purchase price before all the assessments have been paid in.

The lots are offered at $250 each, in payments extending through one year First payment $40; balance in monthly installments of $20—without interest.

The lots average in size about 25 by 120 feet. None of the lots have less than 25 feet front—Corner lots 32½ feet front by 100 feet in depth.

OF DEATHS, that annually occur, are caused by Preventable Diseases, and the greater portion of those complaints would, if Radway's Ready Relief or Pills, (as the case may require,) were administered when pain or uneasiness or when pain or uneasiness or slight sickness is experienced, be exterminated from the system in a few hours. PAIN, no matter from what cause, is almost instantly cured by the Ready Relief. In cases of Cholera, Diarrhœa, Cramps, Spasms, Bilious Cholic, in fact all Pains, Aches and Infirmities either in the Stomach, Bowels, Bladder, Kidneys, or the Joints, Muscles, Arms, Rheumatism, Neuralgia, Fever and Ague, Headache, Toothache, &c., will in a FEW MINUTES yield to the soothing influence of the Ready Relief.

Sudden Colds, Coughs, Influenza, Diptheria, Hoarseness, Sore Throat, Chills, Fever and Ague, Mercurial Pains, Scarlet Fever, &c., &c., take from four to six of Radway's Pills, and also a teaspoonful of the Ready Relief in a glass of warm water, sweetened with sugar or honey; bathe the throat, head and chest with Ready Relief, (if Ague or Intermittent Fever, bathe the spine also,) in the morning you will be cured.

How the Ready Relief Acts.

In a few minutes the patient will feel a slight tingling irritation, and the skin becomes reddened; if there is much distress in the stomach, the Relief will assist Nature in removing the offending cause,—a general warmth is felt throughout the entire body, and its diffusive stimulative properties rapidly courses through every vein and tissue of the system, arousing the slothful and partially paralyzed glands and organs to renewed and healthy action, perspiration follows, and the surface of the body feels increased heat. The sickness at stomach, colds, chills, headache, oppressed breathing, the soreness of the throat, and all pains, either internally or externally, rapidly subside, and the patient falls into a tranquil sleep, awakes refreshed, invigorated, cured.

It will be found that in using the Relief externally, either on the spine or across the kidneys, or over the stomach and bowels, that for several days a pleasing warmth will be felt, showing the length of time it continues its influence over the diseased parts.

☞ Price of R. R. R. 50 cents per bottle. Sold by Druggists and Country Merchants, Grocers, &c.

RADWAY & CO.,
87 Maiden Lane, New York.

TYPHOID FEVER.

This disease is not only cured by Dr. Radway's Relief and Pills, but prevented. If exposed to it, put one teaspoonful of Relief in a tumbler of water. Drink this before going out in the morning, and several times through the day. Take one of Radway's Pills one hour before dinner, and one on going to bed.

If seized with fever, take 4 to 6 of the Pills every six hours, until copious discharges from the bowels take place; also drink the Relief diluted with water, and bathe the entire surface of the body with Releif. Soon a powerful perspiration will take place, and you will feel a pleasant heat throughout the system. Keep on taking the Releif repeatedly, every four hours, also the Pills. A cure will be sure to follow. The Relief is strengthening, stimulating, soothing, and quieting; it is sure to break up the Fever and to neutralize the poison.

Let this treatement be followed and thousands will be saved. The same treatment will be followed in Fever and Ague, Yellow Fever, Ship Fever, Billious Fever, will effect a cure in 24 hours. When the patient feels the Relief irritating or heating the skin, a cure is positive. In all cases where pain is felt, the Relief should be used.

REDINGTON & CO.S' COLUMN.

REDINGTON & CO.S
ESSENCE OF JAMAICA GINGER.

THIS valuable preparation, containing in a highly concentrated form all the properties of the Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs

As a tonic it will be found invaluable to all persons recovering from debility, whether produced by fever or otherwise, for whilst it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to Nausea, caused by the riding in a railroad car, or by sea-sickness, or other causes. It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

STOP THAT COUGHING!

SOME OF YOU CAN'T, AND WE pity you. You have tried every remedy but the ONE destined, by its intrinsic merit to supercede all similar preparations. It is not surprising that you should be reluctant to try something else after the many experiments you have made on trashy compounds foisted on the public as a certain cure; but

NEWELL'S
PULMONARY SYRUP

is really the VERY BEST remedy ever compounded for the cure of Coughs, Colds, Sore Throat, Asthma, Whooping Cough, Bronchitis and Consumption. Thousands of people in California and Oregon have been already benefited by the surprising curative powers of

NEWELL'S
PULMONARY SYRUP

and with one accord give it their unqualified approbation. We now address ourselves to all who are unacquainted with this, the greatest Panacea of the age, for the healing of all diseases of the Throat and Lungs, assuring you that

NEWELL'S
PULMONARY SYRUP

has cured thousands and it will cu YOU if you try it. This invaluable medicine is pleasant to the taste; soothing, healing and strengthening in its effects; entirely free from all delecterious drugs, and perfectly harmless under all circumstances.

Certificates from many prominent citizens of San Francisco accompany every bottle of

GRAEFENBERG
UTERINE CATHOLICON

If faithfully used according to directions will cure every case of Diabetes, and greatly mitigate the troublesome effects cause by a relaxation of the outlet of the bladder. It is a most successful remedy for the Gravel and other diseases of the Kidneys and Bladder, and for female diseases is unequalled. The *Catholicon* uniformly cures Prolapsus Uteri, Whites, all Irregularities of the Monthly Turns, Suppressions, Incontinence of Urine, Bloating, Dropsical Swellings, and all diseases of pregnancy.—The specific action of this medicine is immediate and certain upon the Uterine and Abdominal Muscles and Ligaments; restoring them to as healthy a state as those of childhood and youth, so that patients who have used the *Graefenberg Company's Uterine Catholicon* cannot sufficiently express their gratitude for the relief afforded.

MEDICAL.

THE SCIENCE OF HEALTH!

Every Man His Own Physician.

HOLLOWAY'S PILLS,

AND

HOLLOWAY'S OINTMENT!

Disorders of the Stomach, Liver and Bowels.

The Stomach is the great centre which influences the health or disease of the system—Abused or debilitated by excess—indigestion, offensive breath and physical prostration are the natural consequences. Allied to the brain, it is the source of headaches, fiental depression, nervous complaints and unrefreshing sleep. The Liver becomes affected and generates bilious disorders, pains in the side, &c. The Bowels sympathize by Costiveness, Diarrhœa and Dysentery. The principal action of these Pills is on the stomach, and the liver, lungs, bowels and kidneys participate in their recuperative and regenerative operation.

Erysipelas and Salt Rheum,

Are two of the most common and virulent disorders prevalent on this continent, to these the Ointment is especially antagonistic, its "modus operandi" is first to eradicate the venom and then complete the cure.

Bad Legs, Old Sores, and Ulcers.

Cases of many years' standing, that have pertinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful unguent.

Eruptions on the Skin.

Arising from a bad state of the blood of chronic diseases, are eradicated, and a clear and transparent surface regained by the restorative action of this Ointment. It surpasses many of the cosmetics and other toilet appliances in its power to dispel rashes and other disfigurements of the face.

Female Complaints.

Whether in the young or old, married or single, at the dawn of womanhood, or the turn of life, these tonic medicines display so decided an influence that a marked improvement is soon perceptible in the health of the patient. Being a purely vegetable preparation, they are a safe and reliable remedy for all classes of Females in every condition of health and station of life.

Piles and Fistula.

Every form and feature of these prevalent and stubborn disorders is eradicated locally and entirely by the use of this emolient; warm fomentations should precede its application. Its healing qualities will be found to be thorough and invariable.

Both the Ointment and Pills should be used in the following cases:

Bunions,	Piles,	Sore Legs,
Burns,	Rheumatism,	Sore Breasts,
Chilblains,	Ringworm,	Sore Heads,
Fistula,	Salt Rheum,	Sore Throats,
Gout,	Scalds,	Sprains,
Stiff Joints,	Tetter,	Ulcers.
Lumbago,	Skin Diseases	Venereal Sores,
Sores of all kinds,	Mercurial Eruptions,	
Swelled Glands,	Wounds of all kinds.	

CAUTION.—None are genuine unless the words "HOLLOWAY, NEW YORK AND LONDON," are discernible as a *Water Mark* in every leaf of the book of directions around each pot or box; the same may be plainly seen by *holding the leaf to the light*. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

* Sold at the manufactory of Professor HOLLOWAY 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicine, throughout the civilized world.

☞ There is considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each pot and box.

☞ Dealers in my well-known medicines can have Show Cards, Circulars, &c., sent FREE OF EXPENSE, by addressing Thomas Holloway, 80 Maiden Lane, New York. k9-1y

THE

EAGLE PIANO-FORTE CO.

950 BROADWAY, NEW YORK.

The above company is composed of a number of practical and experienced Piano-Forte builders, sustained by abundant Capital, and whose especial object is to manufacture Piano-Fortes embracing.

Every modern Improvement of

REAL MERIT.

While other manufacturers embody their own special improvements in their instruments, they are deterred from using, the perhaps equally valuable improvements of others in regard to other portions of the instrument, by the often exorbitant royalties or fees demanded by the Patentees for the privilege, so that although we have frequently announcements of Pianos embracing every modern improvement, there are really none at present that do so. It is the determination of the EAGLE PIANO-FORTE CO., to disregard all considerations of expense in procuring the rights to use any and every improvement which has met the approval, and may be recommended to them by the leading Pianists of the day, such as the Abbe Listz, Thalberg, Gottschalk and others.

This Company has boldly embarked with the above purpose, confident that the American people are prepared to approve, appreciate, and sustain their effort to produce,

The most complete and best Piano-

FORTE IN THE WORLD,

While the expense of manufacturing will necessarily be increase by the purchase of these rights and privileges, it will not be permitted to increase the retail price of any of their instruments. The same style and finish of instruments will be sold as cheaply as those of any other good manufacturer.

The Company being new is disposed to expend its exertions more for establishing its reputation and the reputation of its work than for present profits, confident that this course will be more profitabld in the end.

Every department of the manufacturing being under the hands of a practical workman, who is at the same time a member of the Company and interrested in its success and reputation, insures an exactness with regard to the character of the work that cannot otherwise be obtained.

The best recommendation for these Pianos lies in the fact that they are rapidly finding their way into the parlors of all the leading professional and amateur Pianists of the day in preference to all others.

Confident that their instruments will be their own best recommendation, the Eagle Piano-Forte Co., are anxious to effect the early introduction of one or more of their Pianos into every community, and to this end they offer

Extraordinary inducements to

MUSIC TEACHERS AND OTHERS

Who may be able to aid them in their effort.

School Committees and others desiring instruments for Public Institutions will be offered special inducements.

Ladies and others having charge of Charitable Fairs, Festivals, &c., will be offered special inducements together with suggestions by which the proceeds of their benevolent offorts may be greatly increased: all such are especially invited to correspond with us.

Every instrument manufactured by the Eagle Piano-Forte Co., is made out of the very best and most suitable material selected from all parts of the world, most thoroughly seasoned and prepared, and warranted, in every respect for five years, as to material and workmanship, and to stand in any climate.

Orders promptly and carefully filled from the large assortment always on hand.

PATENT MEDICIN.

HELMBOLD'S BUCHU.

THE ONLY KNOWN REMEDY

FOR

DIABETES,

IRRITATION OF THE NECK OF THE BLADDER, INFLAMATION OF THE KIDNEYS CATARRH OF THE BLADDER, STRAGUARY OR PAINFUL URINATING.

For these diseases, it is truly a sovereign remedy, and too much cannot be said in its praise. A single dose has been known to relieve the most urgent symptoms.

Are you troubled with that distressing pain in the small of the back and through the hips? A teaspoonful a day of Helmbold's Buchu will relieve you.

PHYSICIANS AND OTHERS

PLEASE NOTICE.

I make no secret of ingredients. Helmbold's Extract of Buchu, is composed of Buchu, Cubebs, and Juniper Berries, selected with great care, prepared in vacuo and according to rules of

Pharmacy and Chemistry.

These ingredients are known as the most valuable Diuretics afforded.

A DIURETIC

Is that which acts upon the kidneys.

HELMBOLD'S EXTRACT BUCHU

ACTS GENTLY

Is pleasant in taste and odor, free from all injurious properties, and immediate in its action.

FOR THE SATISFACTION OF ALL.

See Medical Properties contained in the Dispensatory of the United States, of which the following is a correct copy:

"BUCHU. Its odor is strong, diffusive, and somewhat aromatic, its taste bitterish, and analogous to that of mint. It is given chiefly in complaints of the Urinary Organs, such as Gravel, Chronic Catarrh of the Bladder, morbid irritation of the Bladder and Urethr, diseases of the Prostrate, and Retention or the Incontinence of Urine, from a loss of tone in the parts concerned in its evacuation. It has also been recommended in Dyspepsia, Chronic Rheumatism, Cutaneous Affections, and Dropsy."

[DR. KEYSER is a physician of over thirty years' experience, and a graduate of the Jefferson Medical College and of the University of Medicine and Surgery of Philadelphia.]

MR. H. T. HELMBOLD:

DEAR SIR:—In regard to the question asked me as to my opinion about BUCHU, I would say that I have used and sold the article in various forms for the past thirty years. I do not think there is any form or preparation of it I have not used or known to be used, in the various diseases where such inedicate agent would be indicated.

You are aware, as well as myself, that it has been extensively employed in the various diseases of the bladder and kidneys, and the reputation it has acquired, in my judgement, is warranted by the facts.

I have seen and used, as stated before, every form of BUCHU—the powdered leaves the simple decoction, tincture, fluid extracts; and I am not cognizant of any preparation of that plant at all equal to yours. Eighteen years experience ought, I think, to give me the right to judge of its merits, and with at prejudice or partiality, I give yours precedence over all others.

I value your Buchu for its effects on patients. I have cured with it, and seen cured with it, more diseases of the bladder and kidneys than I have ever seen cured with any other proprietary compound of whatever name, or any other Buchu.

Respectfully yours, &c.,

THIS CELEBRATED INSTITUTE

has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it in point of number of patients among the very first of the world, and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALES and IRREGULARITIES IN FEMALES are the great destroyers of health. They insidiously attack the system and gradually undermine and destroy it; they drive the bloom from the cheek, the lustre from the eye, the strength from the frame; they give to the world puny and diseased offspring, and poison, through successive generations the race of man. The marks can be seen in Scrofula, Consumption, Cripples, the Idiotic, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venerial Poison. The mildest forms, by retreating to the blood, hold over the afflicted one, the destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, recognized as the most fatal medica enemy to man, combining with the Venereal, doubles iis dangers. Those who have been treated with that pernicions mineral poison are not cured; the disease has only assumed a new form.

Do not be satisfied with partial cures

that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will baffle the effects of medicine, WHEN PERFECT CURES can be obtained by consulting a physician whom long practice and thorough investigation into the causes of DISEASES of the URINARY ORGANS enables to determine at once the nature of the disease.

In all cases entrusted to the Doctor's care, PERFECT, SPEEDY and PERMANENT

Cures are Always Guaranteed.

In syphilis and its adjuncts; Gonnorrhœa and its accompanying diseases; and all diseases of the Bladder, Kidneys, and prostate; Seminal Weakness; Diseases of the Heart and Lungs; Dyspepsia; Indigestion, Impotency; Incipient consumption, and all diseases of the urinary organs, in either sex, cure always warranted, or NO PAY REQUIRED, at the

Seminal Weakness or Spermatorrhœa.

The young man who experiences that growing weakness in his muscular and mental organization, should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion unaccountable failing of the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil, sleeplessness, troubled and lascivious dreams, accompanied by growing deafness, loss of muscular power, and numerous other symptons of disorganization, the positive traces of that most terrible and destructive of all diseases Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence towards a premature and loathsome grave. To him who finds his life dribbling out in the discharge of the vital principle of existence in nocturnal and diurnal emissions, the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one no hope of cure, but adds to his misery in the knowledge that the one who looks to him for so much of her happiness, is a victim to this evil, and an innocent companion of his punishment. He adds to his misery and disorder until hope leaves him. There is no rescue except in proper and skillful treatment. Consult then, at once, a physician whom long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which fills thousands of sick-rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would especially address himself, giving to each and all assurance of a PERFECT and PERMANENT CURE, without hindrance to business, change of diet, or fear of exposure.

Do not forget the address. See below.

Important to Females.

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the enquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor understanding how imperatively necessary these requirements are, feels called upon to interpose, and beg the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who will feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed. Consultation by letter or otherwise, FREE. See address below.

THE CELEBRATED FEMALE REMEDIES, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. The constantly accruing testimonials of their efficacy declare them to be pre-eminently superior in their action. No lady should be without these Renovating Agents. None genuine unless procured at this office.

Sent by Mail or Express, to any part of the State.

Private Medical and Surgical Institute,

Sacramento Street, below Montgomery, opposite the Pacific Mail Steamship Company's Office. Private entrance on Leidesdorff street, San Francisco.

Established expressly to afford the afflicted sound and scientific medical aid in the treatment and cure of all Private and Chronic Diseases, cases of Secrecy and all Sexual Disorders.

TO THE AFFLICTED.

DR. W. K. DOHERTY returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his Institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all private diseases, viz: Syphilis in all its forms and stages, Seminal Weakness, and all the horrid consequences of self-abuse, Gonorrhœa, Gleet, Strictures, Nocturnal and Diurnal emissions, Sexual Debility, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, etc., etc., and he hopes that his long experience and successful practice will continue to ensure him a share of public patronage. By the practice of many years in Europe and the United States, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury, charges moderate, treats his patients in a correct and honorable way, and has references of unquestionable veracity from men of known respectability and high standing in society. All parties consulting him by letter or otherwise, will receive the best and gentlest treatment, and implicit secrecy.

To Females.

When a female is in trouble, or afflicted with disease as weakness of the back and limbs, pain in the head, dimness of sight, loss of muscular powers, palpitation of the heart, irritability, nervousness extreme urinary difficulties, derangement of digestive functions, general debility, vaginitis, all diseases of the womb, hysteria, sterility and all other diseases peculiar to females, she should go or write at once to the celebrated female doctor, W. K. Doherty, at his Medical Institute, and consult him about her troubles and disease. Let no false delicacy prevent you, but apply immediately and save yourself from painful sufferings and premature death. All Married Ladies whose delicate health or other circumstances prevent an increase in their families should write or call at Dr. W. K. Doherty's Medical Institute, and they will receive every possible relief and help. The Doctor's offices are so arranged that he can be consulted without fear of observation

To Correspondents.

Patients residing in any part of the State, however distant, who may desire the opinion and advice of Dr Doherty in their respective cases, and who think proper to submit a written statement of such, in preference to holding a personal interview, are assured that their communications will be held most sacred, and confidential.

If the case be fully and candidly described, personal communication will be unnecessary, as instructions for diet, regimen, and the general treatment of the case (including the remedies), will be forwarded without delay, and in such a manner as to convey no idea of the purport of the letter or parcel so transmitted. Consultation by letter or otherwise, FREE. Permanent cure guaranteed or no pay.

GRAND CROSS OF THE LEGION

OF HONOR

AND GOLD MEDAL

Awarded to American Sewing Machines at the Paris Exposition of 1867, was given to us as per Imperial Decree, published in the Moniteur Universal, (official Journal of the French Empire) Tuesday, July 2, 1867.

THE HOWE
SEWING MACHINES,
Manufactured by the
HOW MACHINE COMPANY,
No. 609 Broadway, N. Y.

For Families and Manufacturers.

They are celebrated for doing the best work, using a much smaller needle for the same thread than any other machine.

The New Improved Family Machine is without a rival and cannot be surpassed—a Hemmer, Feller, Braider, Quilter, and Guide, go with each Family Machine free of charge.

Every machine is as near perfection as the best machinery in the world can make it.

They are adapted to all kinds of Family sewing and Manufacturing of every description, making a beautiful and perfect stitch, alike on both sides of the articles sewed, and will neither rip nor ravel.

The parts being exactly alike, if any part needs to be replaced, the operator can replace, it.

Loss of time and expense of sending to a machine shop rarely occurs.

The Best Machine in the World.
